PROFESSIONAL SUMMARY

Third-year Information and Communication Technology undergraduate at the University of Colombo seeking an IT internship. Practical project experience in web, mobile and desktop application development, AWS deployment and simulated enterprise networking. Worked with databases, authentication, automated deployments and network troubleshooting. Interested in contributing to software development, cloud infrastructure or networking teams while developing practical industry skills.

TECHNICAL SKILLS

- **Programming and Web:** JavaScript, Java, PHP, C#, HTML, CSS, React, Node.js, Express.js, Bootstrap and Tailwind CSS
- **Databases:** MongoDB Atlas, MySQL, SQL Server, Firebase Authentication and Cloud Firestore
- **Cloud and Systems:** AWS EC2, Linux, Docker, Docker Compose, Jenkins, Nginx, HTTPS and AWS security groups
- **Networking:** Cisco Packet Tracer, OSPF, VLANs, IP subnetting, DHCP, port security, SSH and wireless access points
- **Tools:** Git, GitHub, Postman, Visual Studio Code and Android Studio

EDUCATION

Bachelor of Information and Communication Technology Honours

University of Colombo - Faculty of Technology | 2023 - Present

Third-year undergraduate

RELEVANT TRAINING AND CERTIFICATES

- **AWS Cloud Practitioner Essentials** | AWS Training and Certification | October 2026
- **AWS Academy Graduate - Cloud Architecting** | Amazon Web Services | May 2026
- **Computer Networks and Network Security** | IBM | April 2026
- **Getting Started with Cisco Packet Tracer** | Cisco Networking Academy | February 2026
- **API Testing with Postman** | Learnfi | May 2026
- **Learning Linux Basics Course & Labs** | KodeKloud | February 2026

ADDITIONAL TRAINING

- **Network Security & Database Vulnerabilities** | IBM / Coursera | October 2026
- **Web Design for Beginners** | University of Moratuwa | February 2026
- **PHP and MySQL for Web Application and Web Development** | Udemy | January 2026
- **Beginner's Guide to GitHub** | Alison | December 2025

SELECTED PROJECTS

Secure Full Stack E-commerce Platform

Technologies: AWS EC2, Docker Compose, Jenkins, Nginx, React, Node.js, MongoDB Atlas

- Deployed a containerized e-commerce application on AWS with automated Jenkins deployments.
- Configured security groups, Nginx, HTTPS, Google OAuth and environment-based secrets.

Links: Source code | Live website

Enterprise Network Architecture

Technologies: Cisco Packet Tracer, OSPF, VLANs, DHCP, SSH

- Built a three-floor hotel network with eight VLANs, OSPF routing and DHCP.
- Configured port security, SSH and wireless access; troubleshot connectivity issues.

Source code: Project repository

GemLink - Rough Gem Marketplace

AWS EC2 | University project - In development

- Deployed a university marketplace project on AWS EC2 to connect rough gemstone sellers in Ratnapura with interested buyers.
- Planned stack: React, Vite, Tailwind CSS, Node.js, Express and MongoDB Atlas; scope includes listings, search, buyer inquiries and admin moderation.

UniMate

Technologies: Java, XML, Firebase Authentication, Cloud Firestore

- Developed an Android task manager with email/password authentication and real-time CRUD.
- Added live search, task priorities and light/dark themes.

Source code: Project repository

Sarasavi Library Management System

Technologies: C# .NET, SQL Server

- Built a desktop library system with borrowing, returns, reservation alerts and book search.
- Implemented validation and error handling.

Source code: Project repository

SOFT SKILLS

Problem Solving and Analytical Thinking | Team Collaboration
Adaptability and Fast Learning | Creativity and Innovation

LANGUAGES

Sinhala - Native | English - Intermediate
