PROFESSIONAL SUMMARY

Third-year Information and Communication Technology undergraduate at the University of Colombo seeking a Full Stack Development internship. Project experience with React, Node.js, PHP and database-backed applications, including authentication and CRUD functionality. Hands-on experience deploying applications on AWS EC2 using Docker, Jenkins, Nginx and HTTPS. Interested in building web applications and contributing to a development team.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React, Bootstrap and Tailwind CSS
- **Backend and Databases:** Node.js, Express.js, PHP, MongoDB Atlas, MySQL, SQL Server, Firebase Authentication and Cloud Firestore
- **Development Tools:** Git, GitHub, Postman and Visual Studio Code; additional programming experience in Java and C# .NET
- **Deployment and Systems:** AWS EC2, Linux, Docker, Docker Compose, Jenkins, Nginx, HTTPS and AWS security groups

EDUCATION

Bachelor of Information and Communication Technology Honours

University of Colombo - Faculty of Technology | 2023 - Present

Third-year undergraduate

RELEVANT TRAINING AND CERTIFICATES

- **API Testing with Postman** | Learnfi | May 2026
- **Web Design for Beginners** | University of Moratuwa | February 2026
- **PHP and MySQL for Web Application and Web Development** | Udemy | January 2026
- **Beginner's Guide to GitHub** | Alison | December 2025
- **AWS Cloud Practitioner Essentials** | AWS Training and Certification | October 2026
- **AWS Academy Graduate - Cloud Architecting** | Amazon Web Services | May 2026

ADDITIONAL TRAINING

- **Learning Linux Basics Course & Labs** | KodeKloud | February 2026
- **Network Security & Database Vulnerabilities** | IBM / Coursera | October 2026
- **Computer Networks and Network Security** | IBM | April 2026
- **Getting Started with Cisco Packet Tracer** | Cisco Networking Academy | February 2026

SELECTED PROJECTS

Secure Full Stack E-commerce Platform

Technologies: AWS EC2, Docker Compose, Jenkins, Nginx, React, Node.js, MongoDB Atlas

- Deployed a containerized e-commerce application on AWS with automated Jenkins deployments.
- Configured security groups, Nginx, HTTPS, Google OAuth and environment-based secrets.

GemLink - Rough Gem Marketplace

AWS EC2 | University project - In development

- Deployed a university marketplace project on AWS EC2 to connect rough gemstone sellers in Ratnapura with interested buyers.
- Planned stack: React, Vite, Tailwind CSS, Node.js, Express and MongoDB Atlas; scope includes listings, search, buyer inquiries and admin moderation.

OMEGA Online Shopping System

Technologies: PHP, MySQL, HTML, CSS, Bootstrap, JavaScript

- Built a responsive online shop with password-hashed registration/login, product search and filtering.
- Implemented cart add/remove functions and total calculation; hosted the application on InfinityFree.

Source code: Project repository

UniMate

Technologies: Java, XML, Firebase Authentication, Cloud Firestore

- Developed an Android task manager with email/password authentication and real-time CRUD.
- Added live search, task priorities and light/dark themes.

Source code: Project repository

Sarasavi Library Management System

Technologies: C# .NET, SQL Server

- Built a desktop library system with borrowing, returns, reservation alerts and book search.
- Implemented validation and error handling.

Source code: Project repository

SOFT SKILLS

Problem Solving and Analytical Thinking | Team Collaboration
Adaptability and Fast Learning | Creativity and Innovation

LANGUAGES

Sinhala - Native | English - Intermediate
